STAGE REQUIREMENTS

The dais size should be approximately 10 X 10 feet, covered by a thick carpet with a white sheet over it.

Six mikes for people sitting on the floor, and a stage monitor.

One extension cord with an electrical outlet.

No incense or mosquito coils.

If the hall is air-conditioned, then the AC should be started at least one hour before the start of the program so that the instruments can be tuned properly and remain at a constant temperature.

There will be one main singer (with one mike) and four accompanists on the stage (one with two mikes and three with one mike each).
